★ thirsty ear records ★

This is a re-issue of Foetus' 1982 record, in which we find a young Jim Thirwell twiddling knobs on a few synthesizers tr

ing
to figure out how they work. Not as amphetamine-crazed as his later stuff, but for anyone who wants to know where some of the roots of industrial/techno/electronica/whatever were laid, this is a good starting point.

[Brad Beving]
