

# **THE FOETUS OF EXCELLENCE**

## **'The Foetus Of Excellence'**

**(Some Bizzare FOE I)**

**\*\*\*\*\***

IF ONLY more releases were given such lavish care in their creation as this one. And what a brainwave! Just what every 20th century boy or girl needs, a box to store their precious Foetus records in away from nuclear war's harm. And what an heirloom to hand over to the next brat generation, a box full of violence ready to go off.

To wipe the baby brains off the wallpaper there's also a rather cheap Foetus Of Excellence T-shirt enclosed. Alternatively, you can wear it to show the world that you paid up for a box full of air. Consumerism. Don'tcha just love it?
